## Hoover Criticism On Marshall Plan Meets GOP Favor

By JOHN L. STEELE  
United Press Writer

WASHINGTON, Jan. 22—Sen. Robert A. Taft of Ohio and several other Republican leaders today rallied around former President Herbert Hoover's call for drastic revision of the Marshall plan.

The ex-President tore into almost every phase of the administration's program for European recovery. The revisions he proposed would slash more than \$4,000,000,000 from President Truman's request for a \$6,800,000,000 Marshall plan down payment.

Hoover's views were set forth in a critique submitted the senate foreign relations committee. There were immediate indications that foes of the administration program would take their stand around a "Hoover plan."

Sen. Taft, chairman of the senate GOP policy committee, told the United Press that Hoover's views were "right in line with what I've been saying."

And Republican Whip Kenneth S. Wherry, of Nebraska, sparkplug of a 20-man GOP group to "revise" the Marshall plan, said Hoover's views would be given "most thorough study." Sen. Wherry endorsed many of Hoover's conclusions. Sen. Homer Ferguson, (R) of Michigan, and Sen. Styles Bridges, (R) of New Hampshire, also said Hoover's ideas merited close study.

Hoover called for American assistance to Europe "to the full extent which does not weaken our own economy." But he warned that the recovery program as now written would drain American resources, continue high taxes and perhaps bring on depression.

The country needs tax relief if its productivity and employment are to be sustained," he said.

Regarding expenditures for the first 15 months of Marshall plan operations, Hoover recommended that Canada, the Argentine and other Western hemisphere nations provide \$3,200,000,000 in families related to Europe, he urged that \$1,000,000,000 in proposed capital goods shipment be stripped from the Marshall plan and handled as "hard" loans by private enterprise or the export-import bank.

Hoover blasted President Truman's request for a four-year commitment by congress for the recovery program.

Even a moral commitment to a four-year program is unwise," he said. "We cannot enforce ideas upon other self-governing peoples, and we should keep ourselves entirely free to end our efforts without recrimination."

Among "constructive modifications" and "safeguards" urged by Hoover were these:

1. Costs of the program to American taxpayers should be cut by "removal of the inhibitions" on German steel, machinery and industrial production. German and Japanese industrial plants should be reopened. Plant dismantlings ceased and ceilings on industrial output in the two defeated nations increased or abolished.

2. Control of the Marshall plan should be removed from the state department and placed in the hands of a bi-partisan group, perhaps along the corporate lines outlined by Rep. Christian A. Herter, (R) of Massachusetts.

3. The U. S. should realize that "the front against Communism" is worldwide and China, Japan, Korea and Western Germany should be brought into the 16-nation Western European program.

4. Recipient states should be required to abandon their "wholly fictitious" currency rates and set up more "realistic" ones to encourage the flow of private capital for reconstruction and bring forth European hoards of gold and currency.

5. The U. S. should realize that "the front against Communism" is worldwide and China, Japan, Korea and Western Germany should be brought into the 16-nation Western European program.

## NAME COUNSEL FOR MAN WHO SHOT WOMAN

Many Not Guilty Pleas Heard In Court; One Prisoner Sentenced

LISBON, Jan. 22—John Henry Adams, 60, of East Liverpool, who was indicted by the Columbiana county grand jury on a charge of second degree murder, in connection with the shooting of Mrs. Goldie Adams, 48, on Christmas morning, was arraigned this morning in common pleas court.

Mrs. Adams, the wife of Ross Adams, who is held as a material witness, was killed in John Adams' shack at the East Liverpool city dump.

Having no counsel for Adams, the court entered a temporary plea of guilty to the charge. The court then appointed Atty. Carroll Lynch of Liverpool to defend Adams. He will confer with the defendant before Adams enters a plea of his own.

Others Arraigned  
Others arraigned Wednesday afternoon and this morning included: Theodore Holland of Weirton, W. Va., entered a plea of not guilty to a charge of second degree manslaughter in connection with the traffic death of Dale Graebing in Glenmore last September.

Holland was released under \$1,000 bond, pending trial.

Herman Wade of Youngstown entered a plea of not guilty to a bigamy charge and was released on a similar bond, pending trial.

Guilty pleas were entered by four defendants yesterday afternoon, three of whom made application

## GUY FRANTZ HEADS FARMERS INSTITUTE

Re-elected Today to Guide Organization; Harvey Bates Vice-President

Guy Frantz of R. D. Lisbon, member of Mt. Nebo grange, and Harvey D. Bates, Goshen, grange, were re-elected president and vice president, respectively, of the Salem Farmers Institute for their second terms at this morning's session in the Memorial building.

Mrs. Elizabeth Pow, who has been secretary-treasurer of the institute since it was organized 17 years ago, was re-elected for the 18th time. The institute is sponsored by five granges, Goshen, Willow Grove, Salem, Perry and Mt. Nebo, in cooperation with the Salem Business bureau.

Hear Speakers  
"Above everything else we need faith in God," according to Mrs. L. S. Pocht, who discussed "The Need of the Hour" at the Wednesday session.

"We need to have faith in ourselves and faith in all the countries of the world," she commented. "The world is looking to the United States for leadership. What kind of leadership will it be?"

F. J. Yengling's Musical Variety Entertainers played the prelude for the program and Mr. Yengling and Raymond Morrow gave a harmonica and guitar duet. Steven Novosky, youngest member of the entertainers, contributed a piano accordion solo.

Tonight's speaker  
The institute will close with tonight's program at 8 in the Salem High school, with E. M. Stephenson, president of the Salem Business bureau, in charge.

Dr. Russell Weisman, Cleveland economist, will give an address on "Observations of the British and French." Dr. Weisman has just returned from a visit to England and France.

## Machinist, Turned Mink Farmer, Makes Success With Avocation

One mink—and the will to work hard—has brought success to Donald Greenamyer, who operates the Quaker City Fur farm, Benton rd. Five years ago, Greenamyer, a machinist by trade, purchased an expectant mother mink. Shortly afterwards she had four baby minks, and with this nucleus he started what has grown into a full-time avocation.

Living in Salem at that time, Greenamyer wanted a business of his own—one in which there was not too much competition. Then, too, he liked to see things grow. This, together with the fact that he had trapped a mink when he was a boy, helped him to choose his present career.

The first two years he carried on at his home here. Three years ago he moved to his present five-acre farm, where he has raised hundreds of these valuable fur-bearing animals.

At present Greenamyer has approximately 250. Strains include the silver sable, natural, black cross, flashy, platinum and almost white. He expects to have some pure white next spring. The platinum pelt is the most valuable.

The baby minks arrive the first of May. They come in litters of from four to 12, although the average litter is four to five.

At birth they are about the size of a man's little finger. Their eyes do not open until they are six weeks old. However, they grow so rapidly that at eight weeks they are half grown and by Sept. 1 are full grown.

Young minks get two meals a day, fully grown ones but one. Eight ounces is the daily requirement for the average mink.

Greenamyer's minks consume 100 pounds of mixed food daily. The mixture consists of cereal and fish or horse meat.

He has a large refrigerator with storing capacity, where the meat is kept fresh.

In winter the minks are watered once a day, while in the summer days are given a drink every hour.

Greenamyer has his animals guarded at night.

Felling starts about Dec. 1. After the skins are removed, all fat is scraped off and the hides put on stretchers where they are left for four days. Then they are shipped to New York City, where they are sold at auction. The average price is \$25 a pelt.

Greenamyer exhibited three of his dand silver sables at the International Mink and Fox show last Thanksgiving week in Grand Rapids, Mich., and was awarded two prizes. In connection with the show there was an exhibit of women's coats, jackets and scarfs. The cheapest mink coat was \$3,000, he said.

John L. Lewis Not A 'Wallace Backer'

AKRON, Jan. 22—John L. Lewis, head of the United Mine Workers, has no desire to run for vice president on a ticket with Henry Wallace and believes the third party to be a "monumental blunder."

These views were contained in a letter written by John T. Jones, director of Labor's Non-Partisan league, political arm of the UMW.

The letter was sent in reply to a query by E. J. McCloskey, head of the United Labor Party in Akron, asking whether Lewis would consider such a move.

"This is to inform you that Mr. Lewis has no political aspirations or ambitions," Jones answered.

Reject Voting Machines For Trumbull County Use

WARREN, Jan. 22—The Trumbull county commissioners by a 2 to 1 vote today declined to accept the recommendation of the board of elections to provide voting machines for the county.

Commissioner W. B. Kilpatrick, Jr., had argued that "purchase of the voting machines would save money for the county in election expenses and expedite the tabulation of returns."

## GERMANS PROTEST FOOD SHORTAGE

MUNICH, Germany, Jan. 22—The Bavarian Trade Union Federation called today for a 24-hour walkout of virtually all workers in Bavaria to begin tonight at midnight.

The strike, protesting food shortages, could affect nearly 1,000,000 workers in this German state.

About 200,000 workers staged a 24-hour strike yesterday in Nuremberg and Cologne. It was the largest walkout in Western Germany since last April.

The strike call will affect such large cities as Munich, Nuremberg, Augsburg, Regensburg, Wuerzburg and Coburg.

Trade union leaders arranged a broadcast to all union members throughout Bavaria, appealing for a strike between midnight Thursday and midnight Friday.

American and British authorities took emergency steps to relieve the food crisis, releasing 5,000 tons of imported fats to boost the ration of 40,000-60,000 Germans during the coming month. The strikes of the last two weeks have been directed largely against fat and meat shortages.

A home-made grenade blew up last night at the Grand hotel here, headquarters of U.S. war crimes prosecutors. The explosion, on a dining-room window, shattered glass on a score of Army officers and

lawyers, but Army investigators said only two of three were scratched. Investigators did not connect the blast with hunger demonstrations.

A 24-hour strike begun yesterday in key industries involved about 100,000 persons in Nuremberg, in the U. S. zone, and about 100,000 others in Cologne, in the British zone.

The number affected was the most in the economically merged zones since upward of 300,000 struck for 24 hours last April in the industrial Ruhr, under British occupation. In recent weeks the Ruhr has been troubled by a series of walkouts embracing about 200,000 altogether.

Some 30,000 persons took part yesterday in a demonstration in the Nuremberg square once named for Adolf Hitler. They carried signs reading, "We Are Hungry," "We Want a United Germany," or criticizing German and Allied occupation officials of the two zones.

The standard basic food ration in the U. S. and British zones is 1,550 calories a day; heavy-industry workers are allowed more. (Nutrition authorities recommend 2,500 calories a day for a sedentary man.) Allied officials say these rations are hard to make because German farmers seem reluctant to help.

WARREN HOSPITAL DAMAGED IN FIRE  
COLUMBUS, Jan. 22—Ohio's primary election will be held May 4. Atty. Gen. Hugh Jenkins held today in ruling that all Ohio primary elections must be held the first Tuesday after the first Monday in May.

The formal opinion, prepared for Secretary of State Edward J. Hummel, was requested after seeming inconsistencies were discovered in the election laws as amended by the 1947 legislature. Jenkins earlier said the most recent action would be considered the will of the legislature.

Primary elections in non-presidential years previously were held in August, but the amendments shift all primaries to May.

Delegate and alternates to national political conventions will be chosen at this year's primary.

## RED BIGWIG TELLS SOVIET U. S. SEEKS FATE OF GERMANY

(By United Press)  
LONDON, Jan. 22—One of the high figures of the Soviet hierarchy warned the United States last night that she was courting the fate of Germany and Japan by trying to "start a new imperialist war."

The speech was made by Mikhail A. Suslov, one of the secretaries of the Communist party, in a Soviet memorial function at Moscow's Grand Opera house marking the 24th anniversary of Lenin's death.

Radio Moscow, in reporting the speech, said that Generalissimo Josef Stalin was among those present on the speaker's platform. This apparently was a hint to let the world know that Stalin still was attending important Soviet functions.

Warns Of Danger  
"The adventurist policy of America is fraught with great danger," Moscow quoted Suslov as saying.

"It should have been thought the downfall of Hitler would have taught American imperialism and its younger brother, Great Britain, something."

"But British and American imperialists are rushing to share the same fate as Germany... The rapacious imperialism of America is striving for world domination, for enslavement of all countries of the world."

"Our great Soviet power is standing in the vanguard of the anti-imperialist democratic camp. It stands on guard over the independence of peoples great and small, defending the interests of mankind throughout the world."

"At the head of this movement is the Communist party, which opens the eyes of the workers, showing that the Marshall plan is a nose for the necks of the peoples of Europe."

The choice of Suslov for this significant speech was viewed as a Soviet tribute to his role in imperialism. Last year a situation was caused when he appeared on the Kremlin wall along with members of the Politburo and marshals of the Red Army during the big Red square parades.

His charges... were voiced in the past by lesser functionaries, but none of his stature has been so outspoken.

Motor Club Names Officers For Year

The board of directors of the Columbiana County Motor club named Mark Klingensmith president for 1948 at a meeting held in the East Liverpool club offices last night.

S. A. Hart of Salineville was elected vice president, Lynn R. Riddle, of Lisbon, secretary-treasurer, and Albert P. Morris of Salem, manager.

The membership of the club on Dec. 31, was 2,832. It was to be expected. The Yearly report shows the travel department prepared 689 detailed routings. In addition, several hundred over-the-counter marked maps and 427 car reservations were handled by club personnel.

The emergency road service department handled 2,368 calls and 498 members of other clubs received garage service while in this county.

The local club ranks 13th in size in the state, it was revealed.

## NAZI PAPERS REVEAL TRUE RED PURPOSES

War-Time "Deals" With Hitler, Japan Aired On "Voice" Program

WASHINGTON, Jan. 22—The United States uncorked a major propaganda blow against Russia today by officially revealing a Soviet offer in 1940 to join the German-Italian-Japanese Axis at a price Adolf Hitler refused to pay.

Already the government's information mouthpiece to the world, "Voice of America" shortwave radio, is pouring into Russia and the rest of Europe the factual story told in a fat volume of long-secret German foreign office records published suddenly by the state department.

The book's 362 pages disclose the minutest details of the two-year Moscow-Berlin honeymoon which began when the men who now rule Russia negotiated a non-aggression pact with Hitler and which ended with Hitler's treacherous attack on the Soviet union June 22, 1941.

It gives the word-by-word deals which led to the 1939 friendship treaty as well as the texts of the then top secret additions under which Germany and the Soviet union carved Poland and North-eastern Europe into spheres of influence or outright control.

And it tells how Premier Stalin demanded, without even seeking an answer, a free hand in Finland, a military base near the Dardanelles and a dominant voice in the oil-rich Middle East in return for a four-power Axis.

The state department volume was published last night after months of discussion among top officials here as to a disposition should be made of the documents which were captured by American forces when Berlin fell and which Russia fought successfully to exclude from the Nuremberg war crimes trial.

The high point of Russo-German collaboration, the new publication shows, was reached in the summer of 1940 when Soviet Foreign Minister Molotov was recorded in German memoranda as having "expressed the warmest congratulations of the Soviet government on the splendid success of the German armed forces" which then were smashing the free nations of Western Europe.

Fewer Power Ideas Found  
It was later that year, after Russia had become alarmed by the new three-power pact among Italy, Germany and Japan, that the question arose of Russia's making the Axis a four-way hookup.

The deal was suggested to Molotov by Nazi Foreign Minister Von Ribbentrop—later to be hanged as a war criminal in Nuremberg—during Molotov's famous visit to Berlin in November. Ribbentrop offered two secret agreements which would have had the effect of dividing Europe, Asia and Africa among the four powers, excluding America and Britain from those continents for to be friendly with Germany, control of the Dardanelles.

Later, in a note sent to Berlin from Moscow by German Ambassador Count Von Der Schulenburg, Molotov offered to conclude such a pact provided a wider Soviet was guaranteed.

The Russian demand covered inclusion of Finland in this sphere, a Soviet-Bulgarian mutual assistance pact, a Russian land and sea base within range of the Dardanelles and flat assurance that the "area south of Batum and Baku in the general direction of the Persian gulf is recognized as the center of the aspirations of the Soviet union."

Never Answered  
Hitler's government never replied to these proposals. Instead, documents from the German secret files showed that on Dec. 18, 1940, Hitler ordered his armies to prepare to crush Soviet Russia in a quick campaign even before the conclusion of the war against England.

One of the sources of conflict which eventually seems to have brought Hitler's decision to attack Russia was the issue of who was to dominate the Balkans.

## Politics Or Prudence?

These things about federal tax reduction this year are certain:

1. Republican majorities in congress will pass a tax-reduction bill.
2. President Truman will veto the bill.
3. Republicans then will try to repass the bill over the President's veto.

The third step can succeed only with the help of Democrats. To get such help, Republicans will have to take tax reduction out of partisan politics and get it into the realm of ordinary prudence.

They will have to trim down the highest tax-reduction figure mentioned—the Knutson estimate of close to six-billion dollars. That is an out-and-out political estimate.

They will have to prove they are willing to shrink federal spending drastically enough to give the treasury a sufficient surplus from a reduced tax income to retire a sizable chunk of the national debt.

They will have to demonstrate in all ways that they are primarily interested in keeping the federal government from becoming a tax-eating colossus starving local government to death—a process already under way.

They will have to give Democrats sincerely interested in trimming federal spending and the national debt a way to save their face if they vote for repassage of a Republican-inspired tax-reduction bill.

There is only one way to do that. It is to demonstrate that federal spending can be trimmed to a point where a moderate tax reduction still would leave a large surplus for debt retirement. In that event, tax reduction would cease to be a cynical device to catch votes and would be justifiable as sound fiscal policy.

If Republicans in congress do not satisfy this requirement, they will prove themselves guilty in the court of public opinion of playing crude partisan politics with the nation's financial welfare.

## Chance To Shed A Handicap

The Republican party's hope of victory next fall would be brighter if all the party's members in congress were demonstrating by word and deed that they no longer are interested in isolationist votes.

There are signs that many of them are trying to shed a handicap that has hurt the party. Senator Wherry's apparent about-face is reassuring. John Foster Dulles' testimony before the foreign relations committee that the United States "cannot long survive as a mere citadel of self-indulging privilege surrounded by massed human misery" is an able summation of the case for European aid. The fact the committee's chairman, Senator Vandenberg, is a distinguished party leader sympathetic to bipartisan cooperation in dealing with the realities of foreign policy is a powerful lever against the party's isolationists.

It wasn't partisan politics that created the Marshall plan and the need for helping Europe to recover its economic stability. It was world events whose consequences must be dealt with as realistically as the events themselves. Isolation is not a thought-out alternative to European aid. It is a denial of obvious facts—a refusal to see things as they are. Isolationists whether they happen to be in the Republican, Democratic or the Communist party, are the most reactionary of all minorities.

A split between Republicans backing the Marshall plan and those whose thinking is still geared to isolation would be tragic. It would offset whatever advantage Henry Wallace has given the G. O. P. by splitting with the Truman administration over the same issue. Wallace would be a strange bedfellow indeed for any Republican candidate for office in 1948.

## It's An American Custom

The rising fear of professional militarists who are filling civilian posts in government under the Truman administration has been checked at least temporarily by the senate armed service committee. It has turned down for the second time Mr. Truman's request for special authority to appoint Maj. Gen. Laurence S. Kuter chairman of Civil Aeronautics board without loss of his rank and pay. The house armed services committee apparently takes the same stand.

More involved than the ability of Gen. Kuter. The appointment was a showdown on the Truman administration's evident desire to fill government posts with professional militarists. The Kuter case got attention because Mr. Truman wanted congress to continue the appointee's rank and pay, thereby giving him a financial advantage over any civilian who might have been appointed.

Doubts are stirring in congress about the effect of "the military mind" in the civilian branches of government—doubts that reflect the people's fear of militarism that began before the revolution and never has been quieted. On the contrary, it has been roused by the Prussian military course on Germany and the betrayal of Japan by militarists. The United States has profited too much by the supremacy of civilians in its affairs to accept a potentially dangerous departure from American custom.

## An American Foreign Legion

To alleviate the shortage of troops for occupation duty, Senator Lodge has introduced a bill authorizing the Army to enlist aliens—50,000 at first and at no time more than 15 percent of the total army. Such enlistees would become eligible for citizenship after five years. "We should gain some useful citizens by this process," Senator Lodge says.

Because of the failure of the recruiting system to attract sufficient enlistees, the Army is more than 60 percent below the proposed minimum strength of five divisions, plus occupation troops. Such a bill would go a long way toward solving the personnel problem and would relieve the Army of the necessity of sending 18-year-olds overseas.

A foreign legion has served the French satisfactorily in Africa for many years, and in the War of the Revolution we had the services of such distinguished

ed aliens as Steuben, Pulaski, Kosciuszko and La Fayette. The proposed bill has merit, especially in view of the fact that aliens already are doing guard duty for the Army at many places in the American zone.

## Gold, The Catalyst

One hundred years ago this week gold was discovered in California, a sleepy stretch of Pacific coast roughly held together by settlements which had grown up around the Spanish missions. The population was less than 10,000. San Francisco, population 900, was barely holding its own. San Diego was going downhill. Monterey was the center of social life. Tallow and hides were the principal exports.

The discovery of gold was like a shot in the arm. The fabulous deeds of the 49ers, the tales of the Barbary coast and the mining camps provided some of the most vivid pages in the American book of years. Among those who failed to find gold were farmers who tapped an even richer lode—the fertile California soil. In the south a city called Nuestra Señora La Reina de Los Angeles began to grow like a hyperthyroid mushroom. Came the railroads, automobiles, movies, radios, pink stucco hot dog stands, Hollywood and Vine, betes, the Brown Derby, Malibu, Santa Anita, Beverly Hills and a land with millions of adopted sons and daughters.

The discovery of gold Jan. 24, 1848, was like a chain reaction that has been growing for 100 years. Gold, the catalyst that started it all, today is comparatively unimportant in the peculiarly wonderful land California has become.

## The Stars Say

BY GENEVIEVE KEMBLE

For Friday, January 23

A generally adverse and inharmonious range of planetary aspects make for a dangerous, unprofitable and hazardous day in which a tendency to impulsive, indulgent and extravagant tactics may exact excessive penalties.

The emotions and impulses are likely to run away with good judgement or to avert right action from sane and practical commitments. There may be agitation, error and loss through rash and erratic moves.

There might be escape from disaster and regrets through pausing before any wild actions or emotions. In this there is some support from certain astral sources. Heed it.

Those whose birthday it is may encounter a hectic and perilous year in which riotous emotions, impulses and urges may be responsible for runaway thoughts, words, deeds and commitments.

These extravagant, ungoverned and indulgent moods may create personal, domestic, social and financial hazard, with a radical upheaval or regrettable estrangement.

Loss may be averted, and progress in minor degree may be in store, by reasonable and cool judgement, putting the brakes on twisted and turbulent impulses, shun all excesses.

A child born on this day may be disposed to many forms of excess and self-indulgence, inciting strife, jealousy and revenge, personal and financial loss. It has, however, a fairly studious and introspective undertone—to be cultivated.

## GUARDING YOUR HEALTH

## Identifying Causes of Skin Rash Puzzle

By HERMAN N. BUNDESEN, M.D.

AN inflammation of the skin, known as contact dermatitis, may develop as a result of exposure to irritating substances, usually chemicals of one kind or another. Of course, if the substance causing the trouble is avoided, the rash will usually clear up, but usually neither patient nor doctor knows just what the irritant may be nor where to look for it among all the things with which the average person comes in contact. For instance, nitrocellulose, to which some people happen to be sensitive, is found in such widely various items of modern manufacture as combs, brushes, patent leather and pingpong balls.

Thus, most cases of contact dermatitis present the physician with a puzzling problem in detection. Where the rash is not severe or troublesome he may solve it by means of patch tests.

## Tests Carried Out

These tests are carried out by placing the substances suspected of producing the rash on small pieces of gauze which are fastened to the skin. Each substance is placed on a separate piece of gauze. After 24 hours, the skin under the patch of gauze will be inflamed if the person is sensitive to the substance on it.

In most cases, however, the rash comes on suddenly with itching, redness, and the formation of blisters. With continued or repeated exposure to the offending substance, the rash may become much worse and spread over the entire body.

## Finding Relief

In these instances the physician's first concern must be to relieve the rash. The quickest means of doing this is to place the patient in a hospital where he is taken out of contact with his usual surroundings. Away from home, office, and garden, and separated from such possible irritants as clothing, hair tonic, soap, toothpaste, sofa cushions and insect powder (to name only a few of the known offenders), the inflammation can usually be easily controlled, and mild X-ray treatments may be used to speed up the healing if it is slow.

When the rash has disappeared completely, one of the old familiar items is added daily. A woman, for example, might first expose to start

using soap, then cold cream, powder, and rouge. If any of these has been causing the trouble, she will soon realize it, because itching usually starts within four to eight hours after contact with the harmful agent.

Treatment can also be carried out at home in many cases if the skin is touched by nothing but air, clean water, petrolatum, and cotton garments. The towels, sheets, and pillow-slips should contain no special starch, bluing, bleach, cleaning fluid, or other chemical substance. In washing, only water is used and soap is avoided. The teeth are cleaned with salt and soda. Cornstarch is used for face powder. The itching rash may be soothed by cold water compresses or a thin layer of petrolatum.

## QUESTIONS AND ANSWERS

Mrs. E. E. G.: What can be done for psoriasis?

Answer: Psoriasis is a condition in which there is loss of consciousness for a few seconds at a time. I know of no drugs which would be of any special benefit in this disorder. Treatment with such preparations as phenobarbital or dantrolin sodium may be of value.

Letters to Dr. Bundesen will be addressed in care of 235 E. 4th St., New York City.

## Columbiana Council Eyes Parking Meter Proposal

COLUMBIANA, Jan. 22—Parking for the business quarter of Columbiana was a project discussed at the meeting of city council Tuesday evening.

The mayor and members of council will visit Carrollton and other towns of about the same size as Columbiana where meters are in use.

Council voted to send Mayor Ramsey to the convention of Ohio mayors in Columbus, Jan. 29 and 30.

At the death of the two Toledo men who built the mausoleum more than 20 years ago, their business passed into the hands of a receiver, who finally abandoned the mausoleum and turned it over to the cemetery board. Although a well-built structure, slight repairs are needed at times for its maintenance, said the roof needing some attention at present.

**Endowment Suggested**  
The board member recommended the plan of endowment like that used for the care of graves, and the mayor and council suggested the cemetery board make a potential increase in the \$5 fee charged for sealing bodies in remaining 100 or so crypts un-

## What To Do For That Sluggish Down-and-Out Feeling

Remember the time when you could eat like a horse, bubbled-over with energy, felt happy as a lark? Was it not because you liked to eat—didn't know what digestion was, felt strong as an ox? Age advances the "old stomach and the ever-changing blood" need help. Now you may again release vibrant energy to every muscle, fibre, cell.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or seamy—thus the stomach will have little cause to get balky with gas, bloating and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

## How fashions do change!

The latest fashion swing takes the ladies right back to where they were when the Gibson Girl was queen! The style magazines hint that hip pads will be worn. Skirts will be long and draped. We're going back to laces, stays, and whalebone!

Back go milady's modes. Back in every respect but one—price! But then, costs on everything else have been sky-rocketing, too!

On everything? Well, practically everything.

But we'd like to remind you that the average family is still getting twice as much electricity for its money today as it did twenty years ago. Just think of how many jobs this ready giant does for you—for pennies!

You can bet a 1948 chapeau that your friends and neighbors in this company will go on working day and night to assure you that electricity remains your willing, dependable, inexpensive servant!

Meeting Feb. 18, the members will be guests of Mr. and Mrs. Gail Bartsch, Ellsworth rd.

## FASHION'S LADY IN TIERS

By EPIE KINARD  
NEW YORK—The lady in tiers will be a fashionably dressed woman this spring.

Many high-styled collections feature dresses flounced out with additional fabric to form multiple rows of graduated tiers. These are posed over slender skirts to create a dress silhouette which has new fullness but not enough of it to upholder a figure.

The tiered dress has so captured the fancy of designers that they've allotted 1948's favored prints to this fashion. One of the most unusual prints in designer Jo Copeland's collection, for example—a pyrotechnic display of white flames shooting from a black sky and called "Northern Lights"—is used to enhance the sprightly appeal of tiered dress, left. Over its slender skirt are posed three tiers and each is edged with black net.

A black-and-white polka dot print—polka dots have broken out like a rash this spring—is Anna Miller's choice for the dress, right, of sheer crepe with a fichu top. The skirt is tiered in four graduated rows, which are used as side panels to control silhouette fullness.

## \* WE, THE WOMEN

By RUTH MILLETT  
In Camden, N. Y., an eighth grade girl kicked up a fuss by wearing slacks to school.

The principal of the school says girls mustn't wear slacks—not in his school.

The mother of the girl says her daughter started wearing slacks during the cold weather "because they're warm" and that she'll continue to wear them.

It looks as though the mother and daughter have common sense on their side. It is certainly true that wool slacks are a lot warmer for winter weather.

In addition to that, slacks aren't subject to quick style changes.

What happened to the skirts high school and college girls were wearing a year ago on school grounds and college campuses? They're out of style, of course. Teen-agers have gone in for the "new look," at considerable expense to their parents.

So why not let the girls wear slacks to school if they want to? They're certainly sensible.

PARENTS' CHOICE  
Besides, shouldn't what a school girl wears to school be a matter for her parents to decide? They're the ones who pay.

With so many of the people in the world needing warm clothes it seems pretty silly for a school principal to raise a bitter row over whether or not it is proper for an eighth-grader to wear slacks to school.

Mrs. Clara Johnson, Mrs. G. R. McNutt and Mrs. John Milmarck were in Youngstown Tuesday to attend the funeral of a relative.

**HOT FLASHES?**

Are you going thru the functional "middle-age" period peculiar to women (38-52 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a stomachic tonic effect!

## MILLER POWER FOR SELECTION GROWS IN OHIO

More Counties Endorse Former Cleveland Mayor For Post

SPRINGFIELD, Jan. 22—Ray T. Miller's bid for the Democratic gubernatorial nomination now has a dozen formal endorsements from county organizations, and party chairmen of another 47 counties have promised their support, his campaign manager, Joseph E. Hurst, said today.

The Clark county (Springfield) Democratic executive committee was the latest to jump on the Miller bandwagon, coming out for Miller after he addressed seventh congressional district Democratic leaders last night.

Miller, one-time Cleveland mayor, proposed a "comprehensive statewide survey" of the entire mental health field and charged that the state "has fallen far behind" in care of the mentally ill.

"It has become clear that Ohio, which used to be first among all the states in the care of mentally ill persons, now is among the least of the states," he declared.

Miller said the survey would determine the type of a "new program of care, prevention and rehabilitation" required. The Cleveland said he would make no mental health program recommendations of his own "until the survey is completed."

Executive chairmen of the seven-county, seventh district later slated Reed Winegardner, of Washington Courthouse, and John McAuliffe, of Marysville, as candidates for delegate to the national convention. Martin Lindboom, of Bellefontaine, and H. S. Foust, of London, were selected alternates, and J. Fuller Trump endorsed for re-election to the state central committee.

## FRUIT GROWERS TO MEET JAN. 30

The Columbiana-Mahoning Fruit Growers Institute will be held at the High school in Columbiana on Friday, Jan. 30, beginning at 10 a. m.

The forenoon session will be largely devoted to market problems and the afternoon session to production problems.

Henry L. Page, manager, Producers - Canners Cooperative, Inc., North Collins, N. Y., will speak on the processing of foods. A report of the committee which is studying the establishment of a processing plant in this area for fruits and vegetables will be made by H. D. Holloway of Leetonia, committee chairman.

Paul Muckley of Waynesburg will discuss the processing of apples.

T. H. King will speak on "Scab and Its Control" and T. H. Parks will discuss "Orchard Insects and Their Control." Both of these men come from the extension service of Ohio State university.

E. D. Witman of Cleveland will speak on "Chemical Control of Orchard Weeds."

This is the 21st annual winter meeting of fruit growers of this area. A large number of growers are expected to attend.

## Children Abroad Sacrifice Essentials to Say "Thanks" To U. S. Children For Food

BY LEE LINDER

PHILADELPHIA, Jan. 22—Some children in Germany, Austria and other European countries are really grateful for American relief food—and show it.

Several thousand children abroad have sacrificed some of their essentials to say their thanks and make their gratitude known in the United States with gifts of home made toys.

The American friends service committee said more than 1,000 toys, ranging from complicated mechanical devices to tiny book ends and paper airplanes, were shipped to America by the school children of Darmstadt, Germany, alone.

The toys were sent here in the wooden crates which carried the food to Europe.

"It's a concrete example of thanks that comes from the heart," said Miss Andrews, committee worker in charge of visual education.

A small piece of wood can cook a lot but many pieces were used to make these simple toys," Miss Andrews said.

**Cloth Needed**

Cloth, even the tiniest bit, is needed to clothe the ragged population but the Darmstadt children offered enough to make their Christmas messages, to the toys.

The toys were set up as exhibits in the city and were being shown throughout the country at schools, churches and libraries.

Sale of the toys would bring money," Miss Andrews said.

"but the psychological value is very great. It proves that some persons know where aid is coming from and are appreciative of it."

The committee, working through the Council of Relief Agencies licensed to operate in Germany, said it helped supply one supplementary meal a day to some 6,000 Darmstadt school children between the ages of 6 and 14. The school doctor chose the children on the basis of the greatest need.

Young trade union apprentices are the greatest sufferers in Austria, the committee reported. Each normally receives 1,600 calories a day but those 15 pounds underweight are eligible for vacations at a trade union rest home. The unions supply about 2,000 calories a day and the committee provides an additional 600.

Beautiful, stuffed dolls were made by girl apprentices "vacationing" at one rest home in appreciation, the committee said, "for supplementary food they received."

A letter received by the committee from the Austrian trade unions said the dolls "were made in the rest home for girls in Mitterwald, Karnten, for America as an expression of thanks for the gifts of food. The production of dolls is being continued provided remnants of material can be found."

The Quakers have nine workers in Austria, busy in a program started in February 1946. Other services include furnishing supplementary food packages to some 10,000 tuberculosis patients under 25 years of age, and supplementary food to

several hundred children in a Vienna TB sanatorium.

Japanese relief began in June 1946 with most of the food and clothing supplies going to Tokyo, Karagwa, Aichi, Kyoto, Osaka, Hyogo, Hiroshima and Nagasaki.

In Japan, as in Germany and Austria, grateful school children made dolls, sandals, drawings and sent them to the U. S. as thanks for food given them by 13 American relief agencies, including the Quaker service committee.

## DEWEY ADVISES FARMERS TO PAY DEBTS AT ONCE

Says That Is Best Insurance Against Recession; Hits New Deal

ALBANY, N. Y., Jan. 22—Gov. Thomas E. Dewey advises American farmers that their "best protection" against a possible recession is to pay their debts now and not expand any further.

The governor, a candidate for the Republican presidential nomination, gave the counsel last night at the 116th annual dinner meeting of the New York State Agricultural society.

He said if economic conditions should dictate large government subsidies, "it seems to be much more logical to subsidize a continuing high consumption of full agricultural production" rather than pay for crop curtailment.

"People need to eat," he observed, "even if they are in a depression."

**Controls Hit**

"Every attempt to impose artificial restrictions or controls in agriculture is inevitably foredoomed to failure," Dewey maintained.

"The New Deal policy to meet a collapse," he asserted, "is to collapse the farmers. I have always opposed that policy and would consider production controls only as a last resort."

Government support of prices of farm products, in Dewey's opinion, should not be high enough to make production controls necessary.

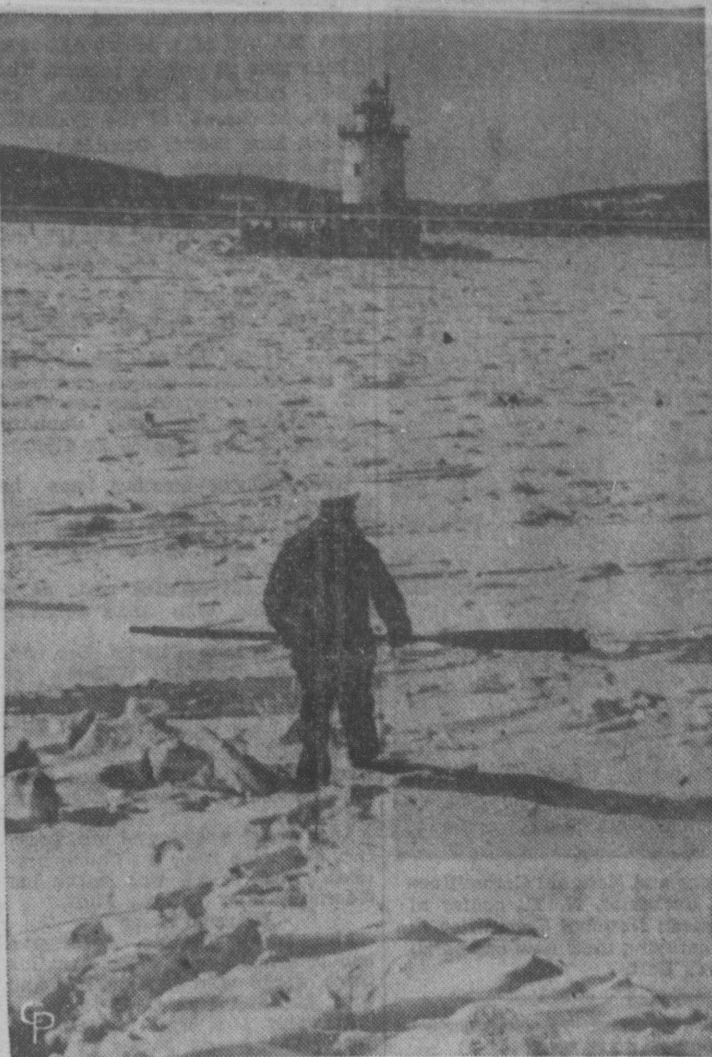

"Such proposals as minimum income payments for all farmers," he continued, "might turn our farmers into a permanent class."

The governor, who owns a large dairy farm in Dutchess county, said he had been asked many times lately how farmers should protect themselves against a recession.

"Of course," he said, "the best protection of any farmer is to pay off debts now. Also farmers should not expand any further. If a real collapse should occur, government will be using desperate remedies for both city and rural population."

Dewey advocated letting the farmers themselves plan and carry out agricultural programs, with government confined to the role of helper.

## Radars On Harbor Tug Beats New York Fog

NEW YORK—Radars has come to the tugboat in New York harbor. To date, only one tug has been equipped with radar, but its experiments may lead to others being fitted out. Possibly ferries soon may grope their way without interruption through dense fogs, where once they were afraid to put out from the dock or occasionally became lost if they did cast off.

The one tug that has been equipped is being operated jointly by the New York, New Haven and Hartford railroad and the Pennsylvania railroad.

While the whole harbor was wrapped in fog, with ships big and small remaining helplessly at their

From where I sit... by Joe Marsh

## From Sheepskin to Sheep

There aren't too many college graduates in our town. Good honest thinking, yes...but most folks went from high school into farming.

No harm in that! But I admire veterans like Dick Newcomb... who's 23, but going to college under the G.I. Bill of Rights. Intends to be a sheep farmer—but a better informed, more scientific farmer, with more know-how!

And veterans like Dick aren't letting anything interfere. What little relaxation they allow themselves is in the form of needed exercise, or

books, or conversation and an occasional glass of beer with friends.

Seems as if, just by having their education postponed, they've put a higher value on it...and on things like temperance (that glass of beer, for instance), understanding, and good citizenship. And from where I sit, when Dick gets his sheepskin—he won't have lost much time. He'll be an even better farmer than his Dad. (Exactly what Dad wanted!)

for probation while a fourth was  
sentenced to state reformatory.

Eight other defendants entered  
pleas of innocent, one of which was  
later withdrawn and a plea of  
guilty with a request for probation  
asked, and bond was set for each  
of the seven defendants pending trial.

**E. Palestine Man Sentenced**  
Sentenced was Elmer Parnsworth  
of East Palestine, who drew seven  
sentences of not less than one nor  
more than 20 years in the reforma-  
tory at Mansfield, when he plead-  
ed guilty to seven indictments  
charging forgery. The court stipu-  
lated, however, that the sentences  
would run concurrently.

James Wilfred Straley of East  
Palestine was released under \$3,500  
bond pending an investigation of  
his plea for probation after he had  
entered a plea of guilty to five in-  
dictments charging burglary and  
larceny of the F.O.E. and V.F.W. homes  
in East Palestine.

James Tackett of East Liverpool  
was released under \$2,000 bond  
pending an investigation of his  
eligibility for probation, after he  
entered pleas of guilty to two in-  
dictments of burglary and larceny.  
James Edward Naughton of  
East Palestine, entered a plea of  
guilty to burglary and larceny at  
the F.O.E., W.F.W. Moose lodge, and  
four service stations, including nine  
indictments and made application  
to the court for probation. Bond  
of \$2,000 was set in each case.

Laverne R. Coursin of East Liver-  
pool entered a plea of guilty to  
burglary and larceny and made ap-  
plication for probation with bond  
set at \$1,500.

Carl L. Adams, Earl Williams,  
Jr., and Richard Coleman of East  
Liverpool, also indicted in two  
counts charging burglary and lar-  
ceny, each entered not guilty pleas,  
and each was held under \$2,000  
bond.

John Williams and Raymond  
Johnson of East Liverpool entered  
not guilty pleas to indictments  
charging auto theft, and bond of  
each was fixed at \$2,000 pending  
trial.

Herman Donahue of Wellsville en-  
tered a plea of not guilty to a  
charge of shooting with intent to  
kill, and bond was set at \$2,500  
pending trial.

Carl Barton of East Liverpool,  
charged with rape with consent,  
entered a plea of not guilty and  
was set at \$2,500 pending trial.

aggression pact carried a secret at-  
tachment, now officially published  
for the first time, assigning Rus-  
sia the Baltic states, except for  
Lithuania which she later got  
anyway, and the eastern section of  
Poland beginning immediately east  
of Warsaw.

Russia was also given a large  
free hand to take Bessarabia from  
Romania, but the complete control  
of the Balkans which she obtained  
with the end of the war was not  
provided for.

One of the first troubles which

followed the signing of the  
aggression pact came in the sum-  
mer of 1940 when Russian forces  
seized Bessarabia and also North-  
ern Bucovina without what the  
Germans considered adequate com-  
pensation. The Germans objected  
too, when the Soviets casually took  
over a strip of Lithuania which had  
been assigned to Germany.

From the first page of the sta-

every theme is one of Russian ef-  
forts to be friendly with Germany.

# The Nation Today

By JAMES MARLOW  
WASHINGTON, Jan. 22 — This will bring you up to date on rent control and what may happen to it. Government rent control ends Feb. 29 unless congress votes to continue it. Congress now is working on whether to keep the lid on. Will it? Most congressmen predict that congress will continue controls after Feb. 29 in one form or another. There are a couple of good reasons for thinking so: 1. This is an election year. 2. Rents, under the present law, already have gone up. There's bad inflation in this country now. Many landlords are a cinch to boost rents if congress lets the controls die Feb. 29. That would just kick the cost of living so much higher. Since this is an election year the voters are likely to take it out on the political party they blame for adding to their living costs. PRESIDENT TRUMAN has told the Republican-controlled congress rent controls should be continued. Now it's up to the Republicans. If they let controls die and rents shoot up before election day, Truman then can tell the voters: "I told the Republicans we needed to keep controls but they would not listen to me." Two Republican senators, Ives of New York and Baldwin of Connecticut, have put a bill in congress to keep controls until June 30, 1949. Rents already have gone up for

James Marlow

as great many people because of the rent control law which congress passed last summer. This law said landlords—by letting a tenant sign a lease for a year or more—could boost his rent as much as 15 per cent, if the tenant was willing. Why should he be willing? Two reasons: 1. He might be afraid congress would let controls end Feb. 29 and then the landlord could raise his rent any amount. 2. By signing for a 15 per cent boost, he protected himself against a raise of more than that for at least a year if controls did end Feb. 29. (The signing had to be done before Dec. 31, 1947.) GOVERNMENT FIGURES show, as of last Nov. 28, the tenants of 1,456,113 rented dwellings had

signed leases that meant a 15 per cent raise. The same figures—they're from the rent administrator's office—indicate the tenants of 14,000,000 rented homes have not signed leases. But what kind of rent control law will congress pass, if it passes one? It's too soon to say. The air is full of congressmen's ideas on this right now. Because many landlords have

suffered hardship under rent control, congress may pass a law to allow them to raise rents a bit generally. Or, congress may find some other way to give landlords a break while keeping controls after Feb. 29. **Runs For Congress** CANTON, Jan. 22—Frank S. Cutshall, head of the Young People's Democratic club and twice unsuccessful candidate for mayor, entered the primary contest for 16th Ohio district congressman yesterday. Former Congressman John McSweeney, Democrat, already is out to unseat Republican Incumbent Henderson H. Carson.

**DISCOVER SCREW IN BOY'S THROAT** DAYTON, Jan. 22—Douglas Miller, three-year-old son of a hos-

pitalized war veteran, was enroute to Chicago's Children memorial hospital today for a delicate operation, after physicians discovered a screw apparently has been lodged in his bronchial tubes for at least a year. Son of Mr. and Mrs. Lewis Miller, Douglas' trip was made possible by the joint efforts of Dayton's mayor, Edward Breen, and two local welfare agencies. Dr. Richard Koehler discovered

the screw while examining Douglas for a case of chicken pox. Miller has been in the Dayton Veterans' hospital since September. **Ashtabula Gets Water** ASHTABULA, Jan. 22 — Water flowed normally through the Ashtabula Waterworks Co.'s intake pipe in Lake Erie today, bringing an end to a water shortage caused by formation of needle or slush ice at the mouth of the company's intake pipe.

The shortage closed schools and a number of business places and industrial plants. A rise in temperature broke up slush ice at the mouth of the intake. **Erring Shots** An estimated 500 hunters are killed and 3000 injured from the shots of fellow hunters during every hunting season in the United States.

## Late For Wedding Because

When he was 30 minutes late for his wedding in Chicago Lillian Zorkowski, 22, bride-to-be, started getting a little mad. But Robert Kaczmarek, 22, had a good excuse. He was unconscious in his garage—laid low by carbon monoxide fumes. Firemen revived him and the happy bridal kiss is pictured. (International)

## GREEK QUEEN AT BATTLEFRONT

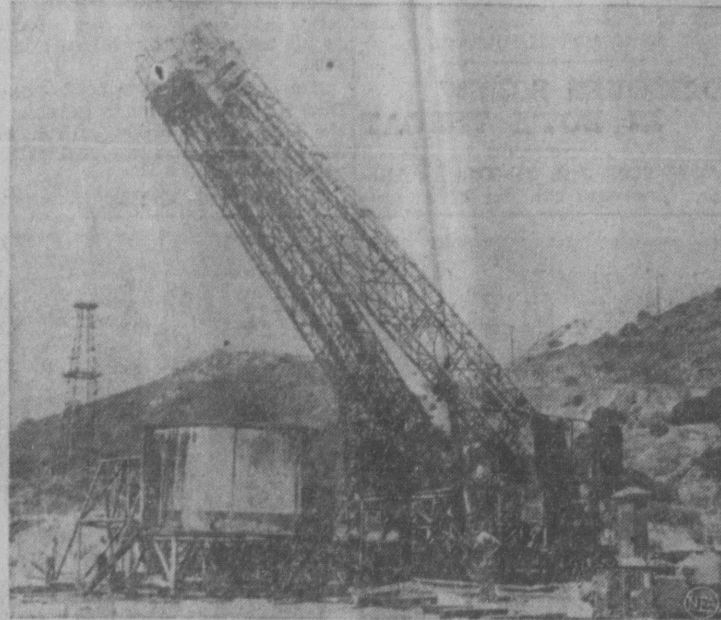

ACTING AS DEPUTY for King Paul of Greece who is ill in Athens, Queen Frederica (top) reviews a unit of the Greek forces fighting the Communist-led guerrillas around Konitsa. The Queen was visiting the war-devastated areas to supervise the welfare of homeless refugees. At bottom, wounded officers and men sit by the roadside near Konitsa, waiting for transportation to Yannina for medical treatment. (International)

## Gastronomical Politics

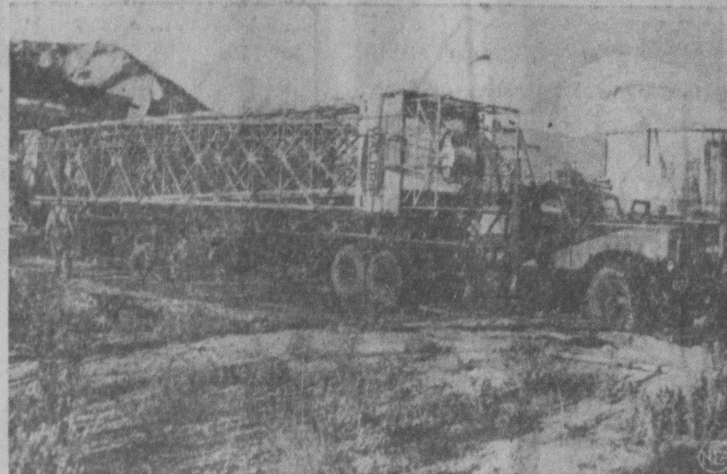

Complete with home-grown beauty queens, Maine and Louisiana celebrate the merits of Louisiana sweet potatoes and Maine Irish potatoes at a joint luncheon in Washington sponsored by Sen. Owen Brewster, R., Maine, and Sen. John H. Overton, D., La. Above, Senators Brewster, left, and Overton feed each other their local products, while "Sweet Potato Queen" Elsie Winters, left, of Lake Charles, La., and "Irish Potato Queen" Betty Green, of Presque Isle, Me., enjoy the show.

## New Mobile Derrick Speeds Oil Drilling

This 8x563-foot unit, when unfolded, becomes . . .

. . . a 123-foot oil derrick, and on short notice . . .

A new collapsible oil driller, constructed by Shell Oil Co. in Ventura, Calif., can be converted from a compact unit on a standard road trailer to a twin-mast derrick on short notice. When completed it stands 123 feet high, equivalent to a 12-story building, and is ready for immediate operation. Company officials expect its mobility to save time and check rising drilling costs. Pictures above show how the 18-ton mobile oil rig works.

. . . it's ready for action.

## The Road Turned But The Driver Didn't

When the road turned and the automobile didn't, this accident at Prophetstown, Ill., resulted. The car smashed through a glass-enclosed porch after leaping 25 feet when it hit a concrete-retaining wall and then tore through a wall of the living room. The driver and his companion were seriously injured. Mrs. Ernie Hodge, asleep in an adjoining room, suffered a neck injury when her bed was knocked several feet from the wall by the impact. (International)

## Ohio Courthouse Burns to Stone Wall Shell

The Champaign County Courthouse goes up in flames at Urbana, O., with all records destroyed. Only the limestone walls were standing after firemen of Urbana and nearby towns—Piqua, Sidney, Bellefontaine—fought the blaze for three hours.

## Blames Government For Inflated Food Prices

COLUMBUS, Jan. 22—Congressman August H. Andresen of Minnesota believes high food prices are direct result of government buying.

Andresen, Republican chairman of a house select committee investigating commodity transactions, in a speech before the Ohio Bakers association yesterday, charged the government purchased 19,000,000 bushels of wheat, Jan. 20, 1947, when

the price was \$2.08 a bushel, and six weeks later the price went to \$3.05.

"If the government had proceeded in an orderly manner, buying in smaller quantities over a longer period of time, we wouldn't have had these difficulties," he continued.

## Takeoff Fails, Pilot Killed

Pilot killed and three injured was the toll when this C-47 crashed into a supply building while taking off at Andrews Field, Md., near Washington.

## Holy Land Victim

## Isolates Polio Virus

IN EXPERIMENT with mice, Dr. Frank Gollan, physiology professor at University of Minnesota in Minneapolis, obtains the first pure polio virus on record, which is reported as a major step toward conquering infantile paralysis. (International)

## High Farm Prices Don't Bring Parity

The Department of Agriculture estimates that the 1947 total of cash receipts from farm marketing was over \$30,000,000,000, a record high, as shown on the chart. Nevertheless, the average income of farmers is less than that of city dwellers, and President Truman, in his State of the Union message, urged modernized price supports and extended crop insurance to help equalize the discrepancy.

## Trapped 12 Hours!

Trapped 12 hours in the blast-wrecked Provus Bros. Furniture Co. warehouse in Chicago's Loop, 60-year-old Joseph Brown is pulled out by firemen. The explosion, blamed on a gas leak, killed five, including the owner, Isidore Provus, and injured two.

## Girl Unconscious for Nine Weeks

Although her eyes are open, 9-year-old Eleanor Montini has been unconscious for nine weeks in a Cleveland, O., hospital. She was struck down by a car while returning home from school and suffered a compound skull fracture. **3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!**

The Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen and the Switchmen's Union of North America, representing 125,000 railroad employees, have refused to accept the offer of the Railroads of a wage increase of 15 1/2 cents an hour.

This is the same increase awarded 1,000,000 non-operating employees by an arbitration board in September, 1947.

This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947.

Agreements have been made with 1,175,000 employees, represented by nineteen unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America represents only about 7 per cent of all railroad switchmen, the other 93 per cent being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

**Strike Threat**  
The leaders of these three unions spread a strike ballot while negotiations were still in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employees in the presence of union representatives.

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Railroad Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employees, stockholders, and the general public to know that through-out these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad employees, and those among the highest paid, can successfully maintain the threat of a paralyzing strike against the interest of the entire country—and against 90 per cent of their fellow employees.

The threat of a strike cannot justify granting more favorable conditions to 125,000 employees than have already been put in effect for 1,175,000, nor will it alter the opposition of the railroads to unwarranted wage increases or to changes in working rules which are not justified.

A glance at the box shows what employees represented by the Engineers and Firemen make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

## Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15 1/2 cent per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.

LOW-COST meat recipes with high-quality eating value are what everyone is looking for. These two recipes belong in your collection:

#### Brasied Lamb Shanks and Noodles

(Serves 5-6)  
Three lamb shanks, 1/4 cup flour, 3 teaspoons salt, 1/2 teaspoon pepper, 2 tablespoons fat, 1 cup sliced onions, 1 small piece garlic, 1 small green pepper, seeded and sliced, 1/2 can tomato paste, 1 1/2 quarts boiling water, 1/2 pound wide noodles.

Have butcher cut each shank into 3 pieces. Combine flour with 1 teaspoon salt and 1/2 teaspoon pepper. Roll meat in this mixture and brown thoroughly on all sides in the hot fat. Then add onions, garlic, green pepper and tomato paste and brown slightly. Add boiling water, remaining 2 teaspoons salt and 1/2 teaspoon pepper; cover and simmer for 1 hour. Then skim off excess fat; add noodles; cover and continue cooking about 20 minutes or until noodles are tender. Serve shanks in center of platter with noodles and gravy around them.

#### Stuffed Hamburgers

(Serves 6)  
Three cups coarse soft bread crumbs, 3 tablespoons minced onion, 2 tablespoons minced parsley, 6 tablespoons melted butter or fortified margarine, 1 1/2 tea-

spoons poultry seasoning, 2 teaspoons salt, 3 tablespoons hot water, 1 pound hamburger, dash pepper, 1 egg, 1/4 cup canned tomato juice.

Combine bread crumbs, onion, parsley, butter, poultry seasoning and 1 1/2 teaspoons of the salt. Add the water and blend. Combine meat, remaining 1/2 teaspoon salt, pepper, egg and tomato juice.

Press meat mixture to a depth of 1/2 inch into each of 6 greased custard cups. Then put in a layer of the stuffing and cover with remaining meat mixture. Set custard cups in a pan of hot water and bake in moderate oven (350 degrees F.) for 45 minutes.

## Ed Diddle Would Like To See Zone Defense Disappear

By JACK CUDDY  
U.P. Sports Writer  
NEW YORK, Jan. 22—Ed Diddle, elderly but dynamic coach of Western Kentucky's excellent quintet, admitted today that he would like to see the "zone defense" in basketball banished to the canal zone or even to the ozone.

Being a tolerant man, however, the great towel-tossing from Bowling Green, Ky., will not campaign for elimination of the zone defense. "No sir," Diddle admonished reporters. "Don't put me down as crusading against that type of prevention. As long as the rule books permit zone defense, it's a coach's own business if he uses it."

"But I will say that I don't like it. It's contrary to the modern trend in basketball—the speedy game that provides so much fun for the players and so much entertainment for the spectators. It slows up the game."

Diddle's remarks were occasioned by Tuesday night's contest at Madison Square Garden wherein the Western Kentucky Hilltoppers had to come from behind five times before they finally beat Long Island university, 62 to 47.

Clair Bee, shrewd coach of the L. I. Blackbirds, threw a zone defense at the Hilltoppers that nearly manacled them. Not until the last three minutes of play, when Kentucky fought fire with fire by us-

ing stalling tactics to force the Blackbirds to "come at 'em," were the crimson-clad Kentuckians enabled to break loose and live up to their reputation as a high-speed team.

At his hotel today, Diddle said, "that was our 13th game this season, and it was the first one in which we ran into the zone defense."

Pilot Ed — a middle-sized chap whose gray thatch looks like a cross between a sagebrush and a crew haircut—had little cause to toss his bath towel triumphantly into the air until the closing minutes of the game. Instead, the man in the gray suit, red necktie and red-flowered lapel often lammed the towel to the floor or mopped his face in frustration.

When Diddle explained today that Western Kentucky State was situated at Bowling Green, Ky., he emphasized wryly that there was another Bowling Green in Ohio. Coincidentally, the Ohio Bowling Green had tagged Western Kentucky with its only defeat this season, 75-64, on Dec. 29.

Coach Ed, who is extremely confident of the prowess of his team, added, "but we'll beat Bowling Green by at least 10 points when we play them on our home court. They beat us by 11 on theirs."

## VEECK TO TELL OF FAN-DRAWING METHODS IN TALK

Addresses Minor League Executives at Session in Columbus Today

By FRITZ HOWELL  
Ohio AP Sports Editor

COLUMBUS, Jan. 22—Bill Veck, sport-shirted president of the Cleveland Indians, goes before almost 300 minor league baseball executives today to bare the promotional magic which made Cleveland's turnstiles click 1,521,978 times in 1947 for a new attendance record.

Veck's talk is one of a dozen

scheduled for delegates from 57 bush leagues attending the first annual rule interpretation and discussion conference, called by George M. Trautman, red-haired and militant president of the National Association of Professional baseball leagues.

First three days of the conference were spent in reading every word of the major-minor and national association agreements, with Trautman and his aides offering interpretations and explaining how various contract, waiver, assignment and other papers should be filled out.

Trautman insists his big reason for calling the conference was to teach the front office boys how to handle their paper work. He contends one of every four reports received at his headquarters had to be returned for corrections.

First social event of the confab was held last night when the Columbus ball club and the American Association headquarters were hosts

at a get-together at which Lou Fonseca showed the 1947 World Series films.

Although Veck's talk was slated to highlight today's program, other top-flight baseball men were due to have their say. Among them: Bruce Dudley, Louisville, Ky.,

"The Pass Gate," Edgar Brands, the Sporting News, "The Press," Bob Hooley, Columbus, "The Official Scorer," Robert L. Finch, National Association publicity chief, "The Average Fan and You," and "New Leagues and Realignment."

Yesterday, Trautman urged the

clubs to provide adequate dressing quarters and protection for umpires; said the "Mexican Situation" was being cleared up to everyone's satisfaction; and disclosed that a uniform ball would be used in all minor leagues starting with the 1949 season.

In the Deep Blue Sea  
Contrary to what we believed as children, if we dug straight down from the United States, we wouldn't come out in China, but in the Indian ocean, west of Australia.

## Second Guessing

By DON E. BEATTIE  
News Sports Editor

### DEPARTMENT OF INFORMATION

Over a period of 10 games one would expect a winning ball club to have its "good" and "bad" quarters, but apparently that isn't the case with the Salem Quakers, who have yet to lose in scholastic competition. With a total of 40 quarters in to date, the locals have tallied a grand total of 470 points as compared to the opposition's 350. On an over-all basis that would give the Quakers an average of 11.7 points per quarter. Figuring the quarter thing down to actualities, taken from a quarter-by-quarter count, the facts are:

In 10 first quarters this year Salem has totaled 107 points for a 10.7 average. In the second periods the total is 121 for a 12.1 mark.

Third periods add up to 114 points and a 11.4 average. In the final cantos Salem has wrapped up 122 points—the highest total—for a 12.2 average.

Altogether the figures show that Salem is fairly consistent throughout a game without noticeable decreases or "hot" quarters. The lowest total Salem has scored in a quarter so far was the slim three against Rayen in the second frame. The highest mark was posted in the 20 points against Ravens in the second frame. So even there the extremes occurred in the same period of different games.

To date Salem has been out-scored in only nine quarters—two by Toledo MaComber, three by the Alumni, one by Dayton Fairview, one by Ravens, one by Warren and one by Rayen. East Liverpool equaled the Quakers in two other quarters and the locals have been superior in the remaining 29.

The offensive average per game is 47.6 as compared to the foe's mean of 35.

### SOUR GRAPES DEPT.

Springfield Township and Lowellville, two of the district's outstanding "B" schools, have made overtures to Salem since the Rayen game and crowd—to cut in on the East Liverpool-Quaker spectacle at the Youngstown South field house next Thursday.

The two schools wanted "in" on the evening on a twin-bill basis, splitting the costs—and, of course, the profits.

Salem officials, who arranged the event originally to satisfy an East Liverpool cry for tickets and "room to play," have decided to turn the bid down.

It's a well-chosen decision. For Salem certainly will come out far ahead financially for the evening—not to mention a secondary consideration—and will also have the opportunity to give its reserve squad a go on the spacious field house floor.

Tournaments are played, won and lost on the South field and every second a team can get on it will be worth the while in years to come.

As for the added crowd the two B teams might draw, well, it seems logical that Salem would be better off on its own. For Quaker fans

like nothing more than a place to sit comfortably and watch basketball.

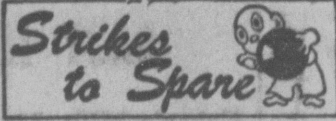

East Liverpool is a good bit the same way, and a darned sight more accustomed to it now. So the crowd ought to be sufficient without any sideline attractions.

### ODDS AND ENDS

A lot of local folk are trekking Cleveland ways this week to watch the Ice Follies, another Al Sutphin Arena feature. . . . More than 60 have been up already. . . . Sutphin's Barons—the hockey kids—are burning up the ice, much to the pleasure of a handful of local ice sport fans. . . .

Bruce Hamm, Youngstown recreation official, has extended a special invitation to Ben Barrett to visit with Bill Veeck in Youngstown on Feb. 2. . . . Ben and Veeck have "raincoat" memories to hash over. . . .

Aside to Lisbon: All right, so we missed the prediction on the Chester basketball game. . . . There's nothing we'd rather see than an upset and there's no one more deserving than Jack Mills. . . . Congrats, and wishes for more of the same. . . .

The Salem Women's Bowling association met Tuesday night in the Memorial building to make plans for its annual city tournament. The tourney will be held at the Columbus Kyser alleys, starting March 1.

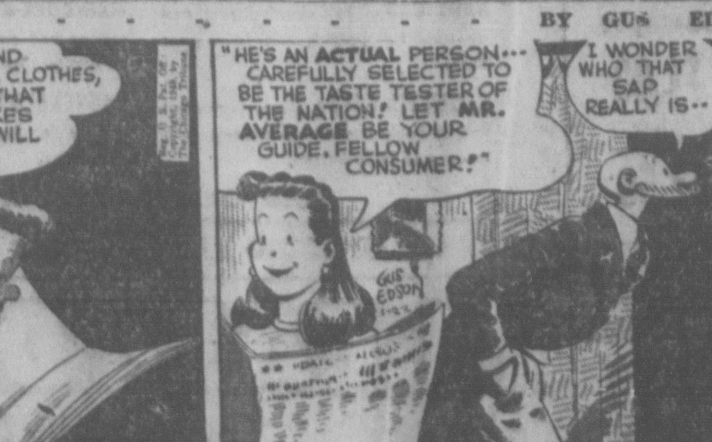

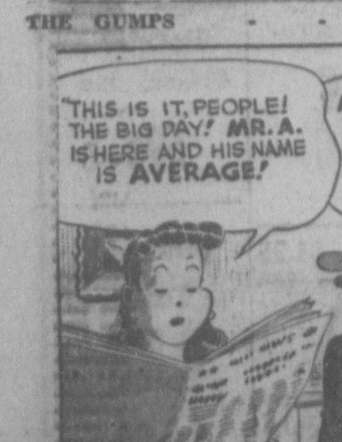

Bowlers highest averages as of Feb. 1 will be used to determine handicaps.

Entry fee for the event will be \$1 per member per event and entries and fees must be in the city office on or before Feb. 14.

Bowlers may bow on as many teams as they desire, but only once in the doubles and singles events.

## BOB FELLER'S '48 INCOME WILL BE HIGHEST IN GAME

### So Says Veeck After Two Agree To Figure: Bob Hunts New Home

(By Associated Press)  
CLEVELAND, Jan. 22—Bob Feller started house-hunting today after signing a 1948 contract which Cleveland Indians President Bill Veeck maintained would continue him as baseball's highest paid performer.

As usual, terms of the agreement were not announced, but Veeck said the strikeout king could make as much as last year's \$87,000, and added that "with a phenomenal year he can make a couple of dollars more."

The Tribe president described a "phenomenal year" as a season that would draw about 1,750,000 cash customers.

Feller's base pay is to remain "about the same," a figure estimated at \$40,000, but his bonuses are to begin at a higher attendance mark and cover a wider scale of total paid admissions.

Last year he more than doubled his base pay with bonus money that began at 750,000 and ended at 1,250,000 paid admissions. The Indians drew a total home paid attendance of 1,521,978 last year.

Veeck did not disclose what attendance figure Feller would begin to draw a bonus, but it was believed to be 1,000,000. The maximum attendance figure at which the ace hurler would reap profits was estimated at 1,750,000.

Veeck stoutly maintained that Feller's total earnings would exceed that of Ted Williams, the Boston Red Sox slugger who was reported to have signed for \$30,000 recently. Joe DiMaggio inked a New York Yankee contract that was said to call for \$70,000.

Feller termed the contract "as good as any" he has signed in his 10 years with the Indians.

The hurler is looking for a furnished house of moderate size near Cleveland to rent during the coming season. In the past the Fellers have stayed in a hotel but he wants more room and particularly a yard for his two sons, Steve, 2, and Martin, six months old.

## Indians Have A Mediocre Record, Little Height To Stop Quakers' Win Streak

"No, I haven't scouted Salem this season, but we at Girard remember Bob Pager well from last season and consequently we appreciate what we're up against Friday."

That's the word from Girard, where Phil Koppel, a Mount Union product of the Bob Wright coaching system, guides the basketball fortunes of the six-time winners, four-time beaten Indian quintet.

Koppel remembers Pager's exploits from last season with good reason, for the big Salem ace had one of his best nights against the Indians last season. He totaled 27 points in the game here, which Salem won handily, 49-34. Girard has beaten Salem only once in seven games.

Koppel, in playing host to Salem this season, puts a mediocre record against Salem's string of nine straight scholastic victories without defeat.

Girard, with no abnormal amount of height, has met three Salem opponents—and the comparisons would rank the Quaker five as a definite favorite.

The Indians lost by a point to Youngstown Rayen—after leading 18-2 in the first quarter—and de-

feated Columbiana, just Saturday, by a 40-33 score. Salem measured Rayen by four points and defeated the Clippers 55-33.

A third comparison also favors Salem. Warren nipped Girard by a lone point, while Salem won handily 60-40 over the Presidents as Pager totaled 36 points.

Other Girard losses have been handed down by Youngstown East, by 12 points, and Akron Kenmore, by a point.

On the positive side of the board, Girard has beaten McDonald twice, plus wins over Liberty, Brookfield and Canton Lehman. The Lehman game was won by a point.

Materials used in erecting this record include a collection of players who were on the varsity when Salem played the Redskins last year.

The starters are Dom DeBene, Dick Over, Tony Zirafi, Frank Rogers and Charlie Jamieson. Zirafi, the tallest, measures an even six feet and the others range from DeBene's five eight to Jamieson's five 10.

Consequently, in comparison to

## Back in Harness

Pager's six-six plus, the Indians won't have anyone to cope with the Big Boy and Pete Cain, who goes at least six-two, under the hoops. The rest of the squads will be almost equal.

Girard, like most of the foes Salem has met this year, alternates a zone and man-to-man defense and in all probability will try a little of each in the game tomorrow.

The 800-capacity gym is almost identical to Salem's in the size of the playing floor. The game area measures 66 by 42 feet, just a few feet wider than the one here and exactly the same in length.

Officials at Girard report that the doors will open at 6:30 p. m. Friday with the reserves scheduled at 7:30 and the varsity at 8:45. Andy Lindsay and Paul Avery, both of Youngstown, will do the officiating.

changed between District Attorney Frank Hogan and Chairman Eddie Eagan of the boxing commission.

He said, "When I heard Mr. Hogan telling what bad things was going on in the fight game, I said to myself I better quit this business right now. I never knew it was so bad."

"But when I heard Commissioner Eagan defend boxing and tell what a great sport it was and how much good it had done for underprivileged boys, I said to myself maybe I ought to stay in the game for a couple more years."

Since Louis' close fight with Jersey Joe Walcott at the Garden on Dec. 5, the champion had been assuring reporters that he would retire after his return June fight at Yankee stadium with Walcott—win or lose.

Last night's jocular remark about fighting "a couple more years" was not taken seriously by the boxing writers.

However, the remarks of Felixy Bocchicchio about Louis and Walcott were taken seriously. Bocchicchio has an exclusive contract on Walcott's services. Moreover, he is Jersey Joe's closest advisor.

Bocchicchio said, "The Louis-Walcott fight hasn't been signed; and it won't be signed until Louis and the 20th Century Club agree to give Walcott 30 per cent of the net receipts from the gate, radio, television, movies, and everything else."

"Louis has signed to defend his title at Yankee stadium in June for the 20th Century Club for 40 per cent of the entire net. But Lou Strauss hasn't made a move to toward Walcott yet—outside of letting us know through third parties that he is willing to give us 25 per cent. Mike Jacobs has asked us to come down to Miami beach and talk the matter over with him; but that's a long way to go just for a little talk."

"What we want is a talk with Louis and his manager, Marshall Miles. If we sit down with Louis and Miles, we can convince them in a hurry that Louis should take 35 per cent instead of his 40; and let Walcott have 30."

"I hope Louis has a chat with us before he goes to England next month. If he doesn't, there probably won't be a Louis-Walcott fight," he added.

## LAST SECOND HERO WINS FOR W. STATE

COLUMBUS, Jan. 22—Everything from last second heroics to terrific one-man scoring spree happened last night in Ohio collegiate basketball, but the "biggest news" was Hiram's first victory of the season.

The Hiram cagers had dropped their first six starts and weren't to be denied. Piling up a 40-19 halftime lead, they coasted 64-51 over Detroit Tech.

Sam Dixon of once-beaten Wilberforce State, and Gene Gegyan-sky and Johnny Popp of Baldwin Wallace provided the last second thrills, while Kenyon's Eppa Rixey and Jack Christen of Youngstown were the "one-man gangs."

Dixon was fouled with 13 seconds to play and the Defiance-Wilberforce score knotted at 43-43. He dropped the second for a 44-43 win. The loss was Defiance's seventh in 13 games.

Degyan-sky's free throw and Popp's field goal—both in the last 20 seconds—brought Baldwin Wallace a 64-61 win over Akron and the Zippers' first home defeat this season.

But it was Rixey and Christen who did the "major" scoring. Christen went on a 36-point scoring spree as Youngstown blasted John Carroll, 81-54, while Rixey poured in 33 points to lead Kenyon 71-56 over Oberlin. Rixey's teammate, Dave Bell, notched 23.

Elsewhere last night, Capital handed Otterbein its second loss of the campaign, while registering its sixth win in seven tries, 49-45. Ohio Wesleyan pulled above the 500 mark for the season, dumping Denison, 76-64, and Steubenville beat Davis and Elkins, 68-60, with some accurate free throw shooting.

# Boyle's COLUMN

BY HAL BOYLE

WASHINGTON — There've been some changes made in Harry S. Truman by nearly three years in the White House.

The changes have come chiefly from the exercise of authority in perhaps the most powerful elective office in the world—the Presidency of the United States.

Responsibility either makes or breaks a man. He grows with the use of authority or it becomes a weapon to tear him apart. It also perhaps does both in many instances—builds up his personality at the same time it takes a slow but killing toll of his nerves. That is the history of the Presidency.

There is no sign yet, however, that the inheritance of high office has done anything to Harry Truman but add to his self-confidence and political stature.

This is on the testimony of a number of tough-minded men, members of the White House correspondents' corps, whose job is perhaps the most grueling in the newspaper field. They aren't men necessarily who would vote for him—many won't—but they all seem to like and respect him.

I WENT TO A TRUMAN press conference the other day, and saw the President for the first time in almost a year.

We gathered in an ante room just before the conference hour. There was a young girl in the group and she was slightly nervous. Most people are when they wait to see a President for the first time.

On the walls were hung three Indian peace pipes in a glass case, a diploma from "The Missouri College of Hunting and Fishing," and several framed political cartoons, some kidding the President, some praising him. One showed a large 8-ball with a sign before it: "Harry doesn't live here in any more."

The door opened and the regular White House reporters filed rapidly

into the conference room, where Truman sat awaiting them.

He rose, made a brief announcement and waited for the questions. They came thick and fast—like balls in a table tennis game. In about 10 minutes Truman answered 18 impromptu questions, smiling and without reference to prepared notes or inquiries of aides around him.

The questions ranged from atomic energy to foreign affairs, from the history of White House architecture to veterans' allowances. The President either gave a detailed answer immediately, replied there was no comment or said that a formal announcement would be forthcoming soon. But there were no pauses, no hesitation. He knew exactly what he wanted to say.

THE PRESIDENT was crisply dressed, about halfway between Wall street and Broadway, in a gray suit with a subdued red check, blue shirt, brown shoes and wore a blue handkerchief in his breast

## PRESCRIPTION PRICES

FACED by serious illness, the price of a prescribed medicine becomes a minor matter. You want the best in ingredients, compounded by the most dependable source. Yet it is reassuring to know that at this Prescription Pharmacy, endorsed by leaders in the local medical profession, your prescriptions will cost no more—often they may cost less—than you would pay elsewhere. So why not come directly to us next time?

pocket. His cheeks were pink, his vitality amazing for a man soon to be 64 years old.

As the conference ended I remarked to a veteran White House correspondent on Truman's self-assurance.

"I've covered all the Presidents since Coolidge," he said, "and this one is the most informal and friendly. He really likes people—although he is actually rather a shy man himself. He still whips out his answers as fast as ever—but he doesn't go off half-cocked now. When he first came here he sometimes got into jams by snapping back answers so quickly. But he is much more sure of himself."

The uneasy young lady was led up then and met Truman, who greeted her with a grin and a hand-clasp. She came away saying:

"I feel all fluttery inside."

Truman may feel that way himself as he heads into a year of peacetime crisis to be climaxed by the presidential election. But if he

has any self-doubt the man from Missouri in no way shows it.
